

PLATFORM
FOR
FURNITURE

SDC_lab is furniture platform specialised in the production of soft coating on flexible elements such as foam.

Our expertise makes us a strong partner in customized projects, regardless of finishing or materials used.

Starting from the mind of an architect to the finished product on the floor. We're able to guide you along these steps.

Because of the expertise SDC_lab is the privileged partner for producing and commercializing products under the QUINZE & MILAN™ label

This pricelist is a guideline through the collection items and is also a base document for the first steps towards customizing.

Contact us for more information!

COLOUR SWATCHES FOR FOAMSKIN COATING QMFOAM / QMPLUS / QMTEX

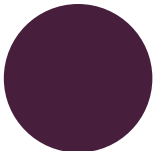

Based on our technology we will match the indicated NCS, PANTONE and RAL colors as precise as possible. Minimum color differences for every production batch are unavoidable. You may demand us to produce a sample first, at the cost of €150,- (shipping included) per sample

Of course "WE LOVE COLOR", but just be aware that not all people appreciate color. our products need cleaning and respect from people. Lighter colours need more cleaning and more caution than darker colors; This is why we split up our range into "contractsafe" colors and the rest of our range. Up to your choice!

IMPORTANT REMARKS

THE PRICES ARE CALCULATED WITH THE IDEA THAT THAT EVERYTHING IS DONE IN ONE COLOR.
ONCE YOU REQUIRE AN ADDITIONAL COLOR WITHIN AN ORDER, YOU MUST ADD A COLOR CHANGE.
WE CHARGE A SMALL ADDITIONAL FEE IN THE FUTURE PER COLOR, TO BE APPLIED FROM THE SECOND COLOR.
THIS IS REGARDLESS OF THE NUMBER OF PIECES PER COLOR.
THE PRICES FOR THIS COLOR CHANGE IS MENTIONED AT THE END OF THE PRICE LIST.

DELIVERY CHARGES

Delivered free for all orders with a value of > 900 euros
For all orders with a value < 900 euros, a fixed amount of will be charged for ordering costs.

Transport damages

Please note that in case you receive visual damaged goods you have to mark this clearly on the delivery sheet of the forwarder. It's imperative that you send a copy of this immediately to SDC email to info@sdclab.be.
If you fail to provide the delivery note with your remarks, we reject all transport claims.

Changing orders

Please note that changes of size and quality are only possible after approval of our internal sales office. These changes may lead to extra costs.

Cancellations

For all orders which are cancelled, 30% of the total amount will be charged.

Tolerances

We want to inform that all our qualities are subject to tolerances (weight, height, structure, colour, ...)

Claims

Claims of faulty goods must be made within 7 days after delivery. Please send your claim well specified, together with photos to your contacts at the office of SDC. If you have a problem with a product, we kindly ask you to prepare this immediately for return.
This will improve the speed of handling claims.
Don't use the faulty products without an approval of our office.

Technical details

All technical details can be provided on demand, or you can find them in the product catalogue or on our website.

Payment

ALL ORDERS WITH A VALUE > 10.000 EURO REQUIRE SPECIAL PAYMENT CONDITIONS.
IF NOT CLEARLY MARKED, THE FOLLOWING CONDITIONS WILL BE USED:
--> 50% WITH ORDER CONFIRMATION
(PRODUCTION WILL NOT BE INITIALIZED BEFORE THIS PAYMENT IS RECEIVED.)
--> 50% BEFORE SHIPMENT
(GOODS WILL NOT BE RELEASED BEFORE THIS PAYMENT)

Order for upholstered pieces and customized items

ALL ORDERS WITH A VALUE > 10.000 EURO REQUIRE SPECIAL PAYMENT CONDITIONS.
IF NOT CLEARLY MARKED, THE FOLLOWING CONDITIONS WILL BE USED:
--> 50% WITH ORDER CONFIRMATION
(PRODUCTION WILL NOT BE INITIALIZED BEFORE THIS PAYMENT IS RECEIVED.)
--> 50% BEFORE SHIPMENT
(GOODS WILL NOT BE RELEASED BEFORE THIS PAYMENT)

Finishing

The finishing is under continuous development for some types of furniture. But some pieces still have to be calculated. Check the sales office for more detailed information.
Please contact your agent for more information and help.

0 = product price in calculation - contact our office for pricing

IMPORTANT NOTE ON THE PRICELIST

Since 2017 we only quote NET prices, so [THIS PRICE LIST IS NET, VAT EXCLUDED.](#)

Another important notice:

THE PRICES ARE CALCULATED WITH THE IDEA THAT THAT EVERYTHING IS DONE IN ONE COLOR.

So once you require an additional color within an order, you must add a color change.

We charge a small additional fee in the future per color, to be applied from the second color.

This is regardless of the numbers of per color.

The price of this color change is indicated in the pricelist and on your quotation.

If we do not know the number of colors at the time of the quote, we will calculate 1 color change for the time being.

Don't find your color in our color swatch, no problemo!

We do custom colors at a small extra cost. This cost is not per item, but per color!

IMPORTANT:

if delivery is requested on site, thank you to do the necessary to provide a responsible person who can receive the goods.

SDC can not be held responsible for the delivery schedules of the carrier and any delays and can not accept any compensation on this subject.

The best is to request delivery in a warehouse that can receive the goods in mint conditions.

Additional charges may apply for all deliveries by truck with a tail lift.

PLATFORM
FOR
FURNITURE

QM FOAMSKIN™ foamcoating

QM Foam foamcoating refers to the result of a chemical reaction between the polyurethane foam shape and different layers, with different compositions, sprayed on to it. This results in a highly flexible coating to be compared to your skin.

QM PLUS™ foamcoating

QM Plus refers to the result of a chemical reaction between the polyurethane foam shape and different layers, with different compositions, sprayed onto it. The QM PLUS finishing has 2 layers of the foamcoating which results in a surface which has stronger resistance.

QM TEX™ texcoating

QM TEX is a coating applied to textiles. The result is a stiff and strong material, very durable, virtually tearproof and easy to clean. The interest of this innovation is to meet the growing need of invulnerability associated with furniture solutions, walls, reception desks, while maintaining a soft touch. Like most of our products, Skintex allows a wide range of possibilities for customization: wide choice of colors, shapes, patterns, as well as the possibility to combine different materials with diverse mediums and kinds of coating, maintaining our known quality standards for the final product. This finishing is one of our own developments.

*Quinze & Milan*TM

INTRODUCING QUINZE & MILAN

Quinze & Milan is not a typical designer furniture label .

Quinze & MilanTM Collections go beyond furniture design.

Our products prompt you to spin tales, to dream and to shape a reality all your own.

Quinze & Milan is a platform, a label with an enormously fascinating synergy, that features the work of designers.

We like to push the boundaries – our own and those of the people around us.

In our cosmos, boundaries exist only to be shifted...

ACA ALLA

ACA ALLA

DESIGN Björn Vande Vijvere

2021

> Acà Allà

> Design by Björn Vande Vijvere, 2020

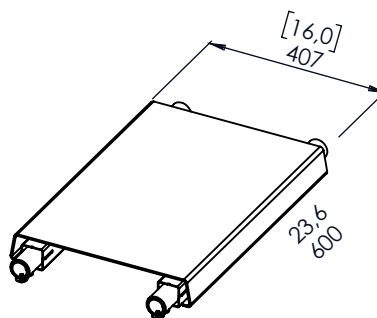

> This design started with the idea of building a piece of furniture that adapts to the needs of the user. It was important to me to design a system that was able to 'grow' by adding more features to the base parts. I love it when someone else can use my work as the basis for his own creativity. Therefore the design has been kept very clean, simple and very modular. One could form a long swirling line with my design, a circle for a more intimate feeling or scatter it around throughout the space. Hence the name "acà allà", two words often used in Latin America: Somewhere over here.. Somewhere over there.. I am very curious to see what people will come up with when they start using it...

 **acà allà**
here, there and everywhere

As an ultimate communication tool, an bench setting creates a landscape of human interaction. Available in variable shapes — crosses, rectangles or meanders — these benches are multifunctional and modular, offering endless combination possibilities. By accident people meet each other as they take place on the bench and immediately look into the opponents eyes. Staying silent is no longer an option as it burdens you with an unpleasant feeling.

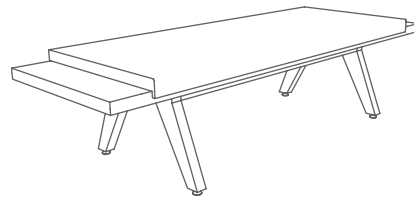

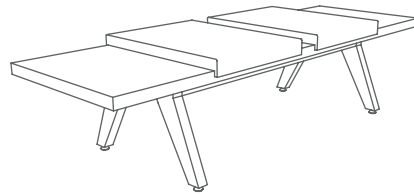

Verbal and social interaction, giving new energy and impulses, becomes the only standard in community life.

On the Single and Double bench, people receive glimpses of each other and start communicating out of curiosity. People get interwoven by interaction. They are forced to sit in an open atmosphere and cocooning is very much a memory from the past. Due to the philosophy behind them, benches are the ideal communication tools in public areas; musea, exhibitions, libraries, lounges, airports, waiting areas,...

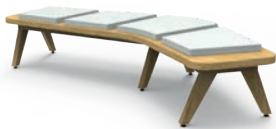

Custom color or sizes are available upon request.

ROOM 26 has a look that fuses the familiar and the timeless with 'something different', offering an extensive range of products that can transform an interior into a space that shouts '26' or, when used sparingly, can conjure up a room that barely whispers the word.

Key to the collection is oak, a material playfully combined with fabric, leather or Foamskin cushions.

Simple, plain, bold: three words that describe the body language of CLUB, a design that seems to say: 'If the basics are right, who needs ornament?' Made from our proprietary QM FOAM™, CLUB is happy indoors and out.

After many successful years, CLUB is now enhanced with a series of new shapes and solutions. Especially the loose cushions are important additions. The seating cushions are made of a combination of memory foam and wadding to create extreme softness and comfort in just a few centimeters of thickness. The back cushions are made of goose down. All loose cushions have removable covers.

The new lateral units standard come with a straight back on the inside. But versions with an inclined inside back are possible upon request. Drawings refer to the left version.

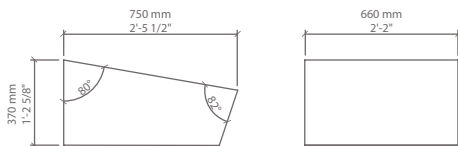

CLUB is also available upholstered in leather and fabric.
Custom color or sizes are available upon request.

Part of moving forward is looking backward. FRAME is a 21st-century remake of the old-fashioned armchair.

Familiar and fascinating at the same time, FRAME combines a stationary tubular-metal frame with Foamskin or upholstered in leather or fabric all for matchless comfort.

Its fresh, distinctive look complements any contemporary setting, while blending with equal ease into a more classic environment. FRAME includes one and two seater settees with and without armrests.

A collection of seating elements that can be combined into... that's right... INFINITY. These pieces are perfect for large public spaces – lounges, lobbies, waiting rooms – or for any spot that will benefit from being divided and subdivided ad infinitum. Those who live in less spacious quarters can stack INFINITY modules to make partition walls. The possibilities are infinite.

INFINITY is also available upholstered in leather and fabric.
Custom color or sizes are available upon request.

CHOOSE YOUR TOPVIEW:

IMPORTANT / QM AIR VENT

Upon ordering, please mention on which side Air Vents have to be integrated.

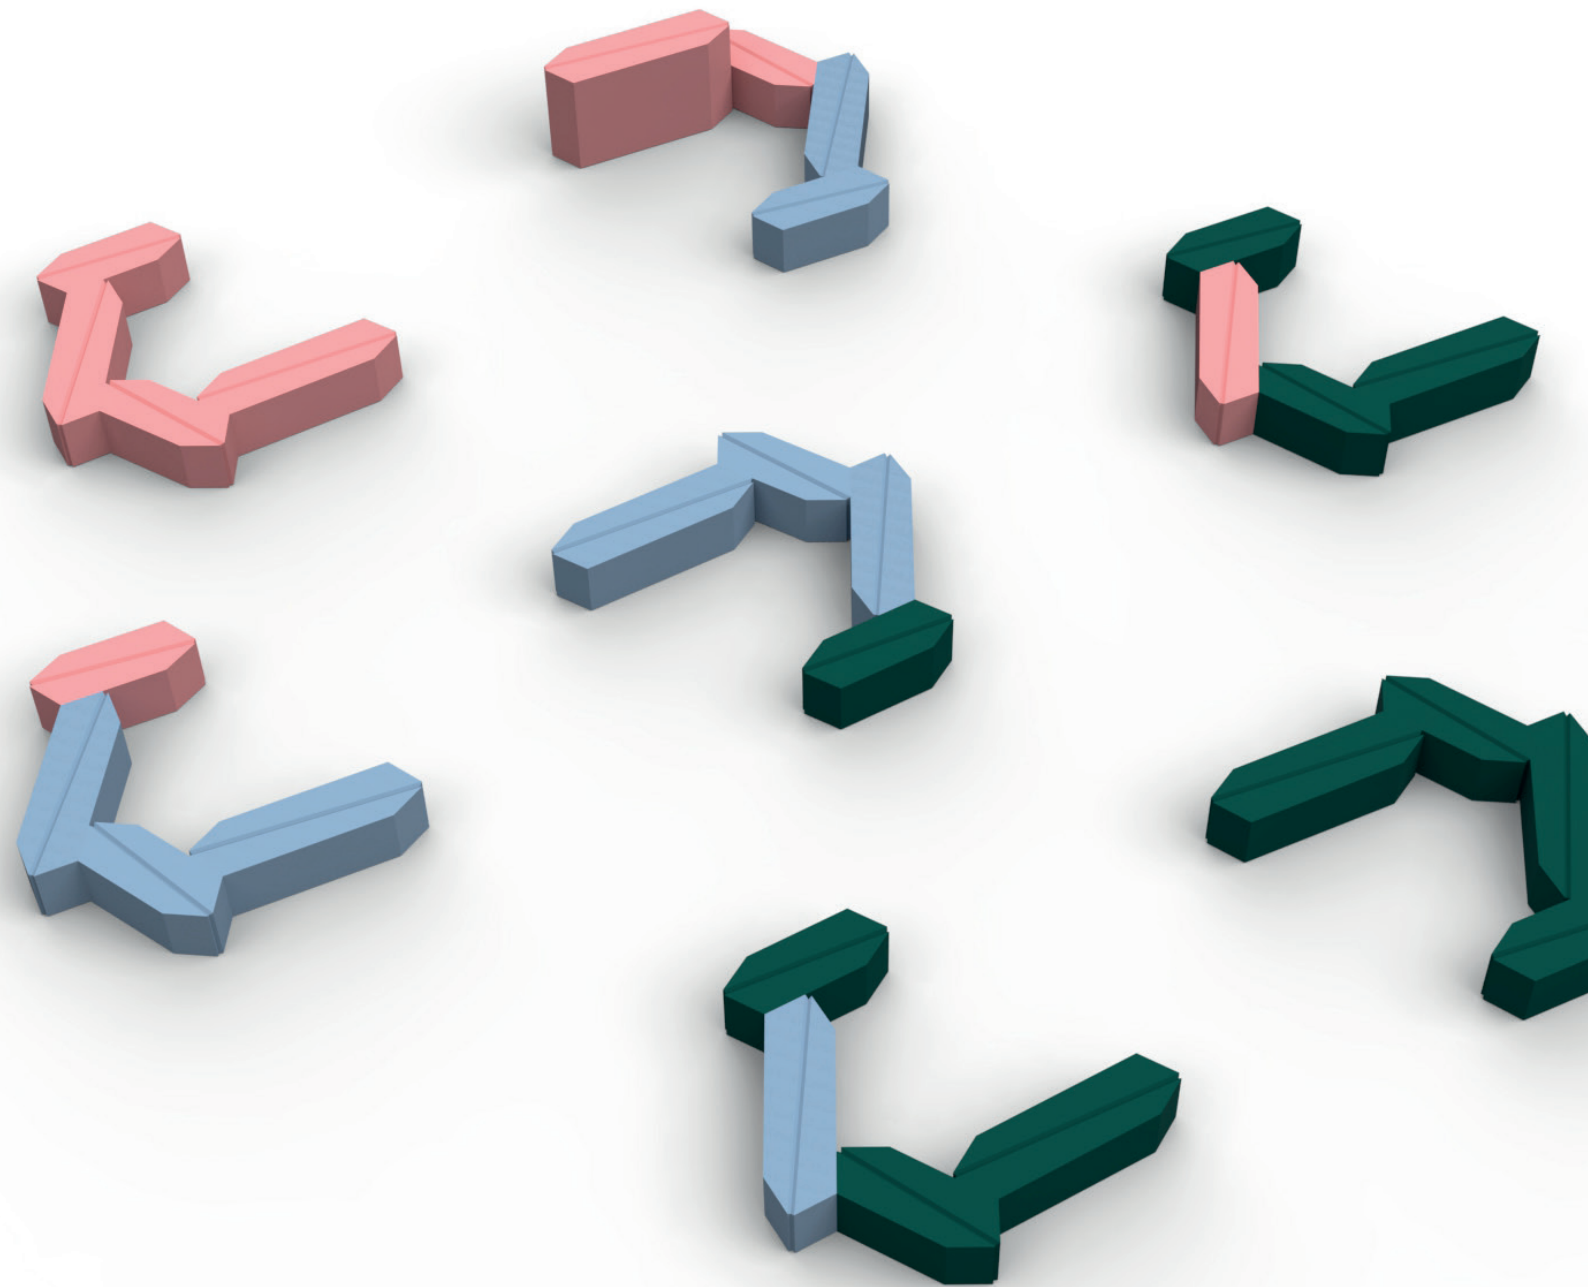

By allowing the QM FOAM to breathe the inside pressure remains controlled, which gives enhanced seating comfort throughout the cushion. Aerating PU foam extends its flexibility, reduces the stress on the individual cells which therefore keep their elasticity much longer. This keeps the foam from wrinkling or loosing its shape.

LEAN is multifunctional furniture system that responds to the needs of a contemporary workday-life, stimulating both body and mind, while overlaying different functions in the office environment. With the aim to avoid sitting for long periods of time while working, this modular furniture arrangement provides a dynamic exchange between sitting, standing and leaning to encourage movement and posture change as well as provide social interaction.

By developing versatile ergonomic uses, the system allows comfortable standing or elevated seating. The designs are ideal for leaning and lounging, and the furniture invites people to move out of the static sitting routine during temporary working, relaxing, phoning, meeting and communicating.

LITTLE MISS O

DESIGN CONCRETE AMSTERDAM

Quinze & milan

When UN Studio asked them to design certain areas for their major project, the Mercedes Benz Museum in Stuttgart, Germany, CONCRETE AMSTERDAM based all its designwork, down to the very detail on the specific identity of the owner. Their aim was to create identity within a total space experience: create individual worlds where a single visitor identifies with and which invites him to stay. The dishes, table linen and silverware in the restaurant as well as the division of the spaces are all in a way renditions of the three-pointed Mercedes Benz logo. LITTLE MISS O, which is placed in the children island, is a result from that research and provides an ideal playground where to nurse children and play with them.

Custom color or sizes are available upon request.

M2

DESIGN SCOTT WILSON

2003

Quinze & milan

Flexible by nature and ideal for large public spaces, the M2 is a modular seating system designed by Scott Wilson for Quinze & Milan. Three basic units (corner, linear and level units), each 1m2, supported by powder-coated steel frames fit together to form the desired configuration. Components can be interconnected or can stand alone. Light fittings can be integrated into the seating elements. M2 has received enthusiastic reviews, as well as honourable mentions at the ISDA Awards and the prestigious ID Design Awards.

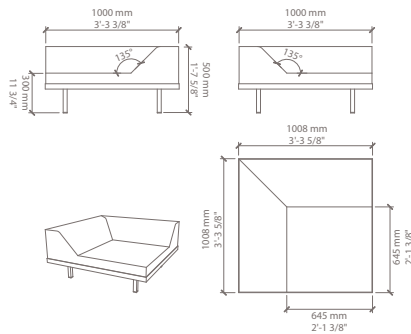

Steel elements are powder-coated in standard grey (RAL 9007) and black (RAL 9005). Sidetable standard grey or black.

MATRASS

DESIGN SAQ

2000

Quinze & milan

MATRASS, an offspring of PRIMARY that was purpose-designed for lounge settings, is available in four sizes, with or without backrests. All pieces can be mixed and matched to create unique arrangements. MATRASS fits right into any number of environments. Tuck it into a corner of the loft or living room. Use it in the children's room. Park it next to the swimming pool, or add an extra level of comfort to the wellness space.

MATRASS is also available upholstered in leather and fabric.
Custom color or sizes are available upon request.

ALSO
AVAILABLE IN
OUTDOOR
VERSION

0 = product price in calculation - contact our office for pricing

NORA

DESIGN Lionel DOYEN

2017

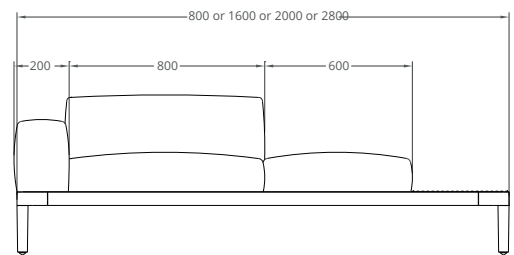

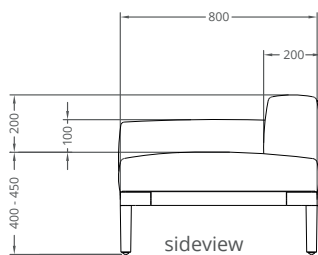

NORA allows you to play with seats, backrests and armrests.

Each sofa is modular and is built up based on 4 standard frames.

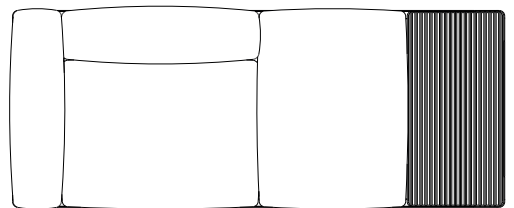

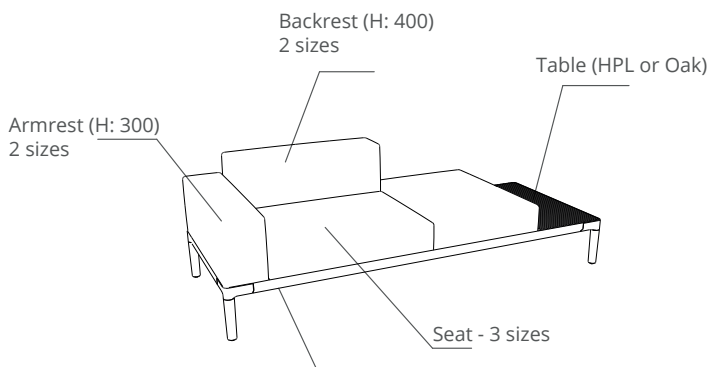

All elements are fixed to a base plate, but can easily be re-arranged. All cushions can be upholstered with different fabrics of your choice.

The baseframe is aluminum with a powdercoating and the feet are wooden legs in oak natural. The complete sofa can be adapted to outdoor use, by changing the wooden feet to acacia, cushions and fabrics in outdoor suitable materials.

Contact our sales office for more pricing options.

OSAKA is the new circular bench system. Gathering around a curved bench increases interaction and social communication.

This system is built up out of 4 standard modules: a curved bench without backrest, a curved bench with backrest, a curved bench with backrest and armrest (left or right) and a circular bench with extra seating at the outside.

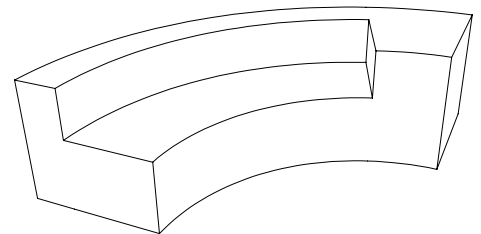

Custom color or sizes are available upon request.

PILOT COLLECTION

The design of the stool is based on traditional archetypes, their basic simplicity in form and function. The organically shade seat is supported by tapered legs made of oiled European oak. The seat itself is generously proportioned for comfort, its material tactile and contemporary. The ends of the legs are threaded and screwed into the seat, a connection that is both simple and sophisticated given the two very different materials of the joint.

Contact our sales office for more pricing options.

PRIMARY
DESIGN SAQ
1999

Quinze & milan

“Our designs are never the end of a thought process,
but the beginning of a dialogue, an exchange of ideas.”

Primary Pouf was honored with some of the most prestigious global design awards.

0 = product price in calculation - contact our office for pricing

PRIMARY DESIGN SAQ 1999

Quinze & milan

Stripped to the essence, PRIMARY is the first comprehensive Quinze & Milan collection and a line that deserves to be called a Quinze & Milan classic.

The pieces in this collection include stools with and without legs (POUF 01, POUF 02, POUF 03 AND POUF 04); one-, two-, three- and four-seater settees (SOLO, DUO, TRIO and QUATTRO); and a chaise longue (LOUNGE).

Soft materials and a simple design language are a tried-and-true formula for a happy marriage. Not only did POUF 01 receive a triple Henry van de Velde Award (Belgium, 2001), but the sassy character of this comfortable, water-repellent collection has made it a hit worldwide: look for PRIMARY in prestigious public spaces from San Francisco and Detroit to Cannes and Porto. The pieces in this collection also lend themselves to residential projects.

PRIMARY is also available upholstered in leather and fabric. Custom color or sizes are available upon request.

QUARTZ

DESIGN QUINZE & MILAN

2007

Quinze & milan

Quinze & Milan tackles geometry once again and has furthered its work on forms and faceting, seeking new effects from the wood and creating a chair whose design is a combination of the past and future. Using the most classic of materials, Quinze & Milan has successfully made an object with a symbolic shape in which the material gains qualities of luminosity.

Quartz is an object of the future that retains the intrinsic value of wood - strong and hard-wearing, comfortable and basic. "We wanted to give the material a different look without however ignoring its natural qualities. The facets give a dynamic and vibrant appeal, while the surface plays with the light, creating a sparkling effect. Just like Quartz.

ROOM 26

DESIGN QUINZE & MILAN 2004

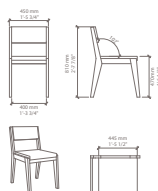

Quinze & milan™

ROOM 26 has a look that fuses the familiar and the timeless with 'something different', offering an extensive range of products that can transform an interior into a space that shouts '26' or, when used sparingly, can conjure up a room that barely whispers the word.

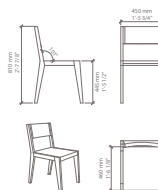

Key to the collection is oak, a material playfully combined with fabric, leather or foamskin cushions.

ROUND CAKE

DESIGN DISSING+WEITLING

2008

Quinze & milan

Round was originally designed for the University Library, a part of the Danish Royal Library, Copenhagen. Round was created to cater for easy socializing in the lounge areas. By composing the various basic elements it is easy to create a relaxed landscape of seating and socializing possibilities. The new humanities faculty library offers the students a well designed, functional library building designed with singular focus on creating the optimum facility based on users' needs. The architects from Dissing+Weitling's project group have liaised closely throughout the entire process with a user group of Royal Library employees.

ROUND CAKE is also available upholstered in leather and fabric.
Custom color or sizes are available upon request.

UDA

DESIGN SDC_lab (intern Paul Gallaud)

2017

0 = product price in calculation - contact our office for pricing

UDA is a the new 'rocking' pouf.

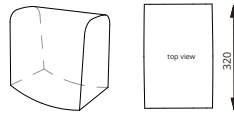

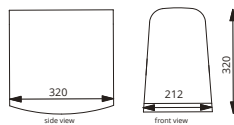

Paul Gallaud was working with us as an intern; All of the sudden he came with the idea to make a new rocking pouf.

Available in 3 sizes and different finishings.

Give it to kids or use it in informal spaces to sit, to play or just as a seat around a meeting room table.

MAKE YOUR OWN FURNITURE SPACE DRIVEN SOLUTIONS

SDC's in house design team can help you with 'customizing' your ideas.

The professional approach guides you towards the ideal solution, taking into account many aspects such as finishing, density, ergonomics, power integrations,...

Contact us at info@sdclab.be

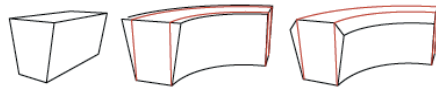

IN ADDITION TO PRODUCING FURNITURE AT OUR IN-HOUSE FACTORY, WE WORK WITH ARCHITECTS AND DESIGNERS TO REALISE THEIR IDEAS/ DESIGNS.

OUR PRODUCTION TECHNIQUES ALLOW US TO MAKE A LOT OF SHAPES, FROM RECTANGULAR TO ORGANIC.

BUT STILL THERE ARE SOME GUIDELINES.

GLUE LINES

Straight units shorter than 210cm can be made out of 1 piece. We can also produce units which are longer but then, a glue line might be visible.

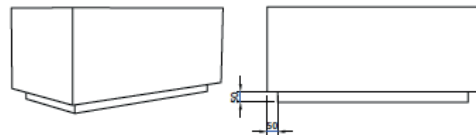

INTEGRATIONS

in this area of technical wildlife, we need to create furniture with clever integrations. We can integrate tablets, screens, powerunits, etc. into our furniture products.

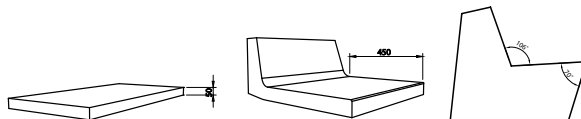

UPGRADES

For hygienic en maintenance purposes in public areas, we often propose to add a plinth. A plinth can be made out of foam or wood, depending on the clients demands. A wooden plinth can be provided of a black laminated or a stainless steel finish.

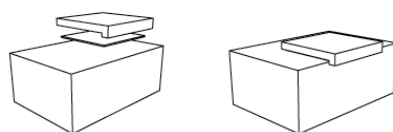

DIMENSIONS

For cushions or wall panels, a minimum foam thickness of 5cm is required.

FIXATION

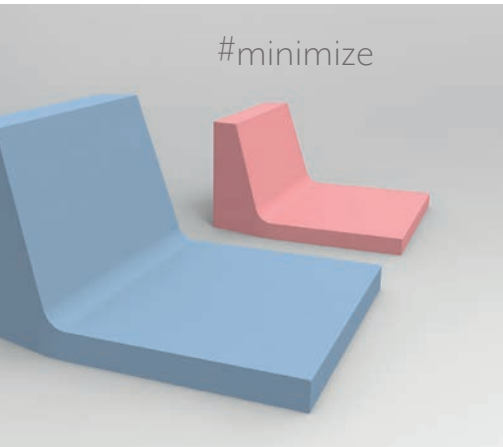

For cushions which are meant to be mounted on a wooden base or a wall, we always use a wooden plate underneath the foam for fixation with screws. That plate is smaller than the foam and will be coated in the same color as the foam.

#POWER INTEGRATION

DEVICE EMBEDDING YOU ASK, WE CREATE

To answer to the need of connectivity in our social environments, we have developed custom made bases and connections for our furniture that allow you to securely plug in electronic devices like tablets, phones, earplugs among others to allow the user of this furniture to expand its experience to another level. The base is custom made and can be adapted to your device or furniture of choice.

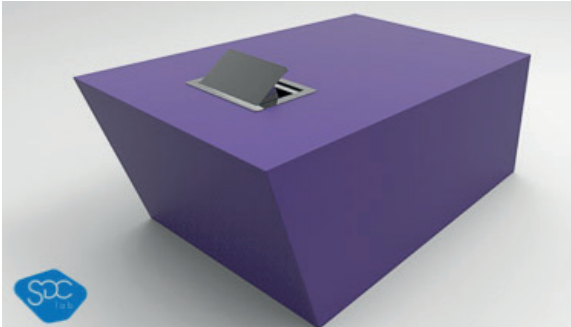

Technical details:

Option 1:

Built-in plate, made to custom size (up to 50cm x 50cm). Cables can pass through the furniture.

Option 2:

Customized integration of anti-theft systems for e-readers and tablets of various brands. Completely with power integration and cables.

Connecting the pieces

For some occasions special feet are required in a project. Or even more, we can offer you a customized soccle which gives an extra protection against abuse or damage.

These feet can also have a connecting purpose. With a simple system, we created an easy way to connect the different pieces.

QM Coating products

Our QM coating products are water repellent. So this means that they don't care about a little bit of water.

But they can't be use for permanent outdoor use in all climatical conditions.

Contact us for appropriate advice!

Following the sun

We know that you sometimes would like to take your favorite pieces of furniture outside.

But not all items are standard suitable for outdoor use. But we can easily modify them to be suitable for outdoor use.

Contact us!

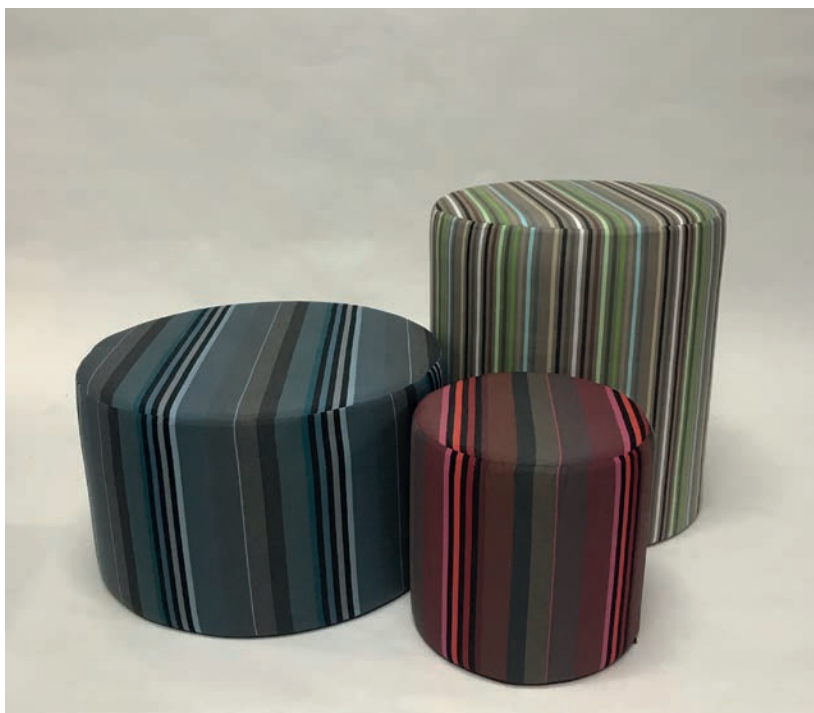

Permanent outdoor use!

Our foamcoating is not recommended for permanent outdoor use.

We can in most cases change the type of foam and fabric to be suitable for permanent outdoor use!

Using a special foam for outdoor use and some special fabrics combined with a special finishing technique gives you the best result.

Article 1 Scope.

§ 1. These general terms and conditions apply to every offer made by, every agreement concluded with and every delivery made by SDC bvba, with company number 0545.930.648 and with registered office at 8560 WEVELGEM, 13 (hereinafter: "SDC") and are an integral part of the contractual relationship between SDC and the customer. They supplement the special conditions agreed by the parties. Insofar as the special conditions that the parties agreed to deviate from these general terms and conditions, the special conditions that the parties agreed to take precedence over these general terms and conditions.

§ 2. By the mere fact of accepting an offer made by, entering into an agreement with and / or accepting a delivery made by SDC, the customer acknowledges to have read and accepted these general terms and conditions.

§ 3. The customer acknowledges that the application of his own general terms and conditions is expressly excluded.

Article 2 Conclusion of the agreement.

§ 1. Unless SDC has explicitly stated otherwise, all its offers are non-binding and non-binding. SDC is only bound when it has confirmed the customer's order. SDC's quotations are in any case subject to sufficient stock.

§ 2. Only persons who have external representation authority under the SDC articles of association can bind SDC. The employees of SDC and the intermediaries to whom it would appeal cannot, as a rule, bind SDC unless they provide a written proxy.

§ 3. The customer can no longer cancel his order that SDC has accepted unless SDC agrees to this in writing. In case SDC agrees to such cancellation, the customer will in any case, unless otherwise agreed in writing, owe a cancellation fee of 30% of the amount of the canceled order.

Article 3 Prices.

§ 1. Unless SDC has indicated otherwise in writing, the prices quoted by SDC are expressed in euros and exclude VAT, packaging costs and shipping costs.

§ 2. For orders with a value less than EUR 900 excl. VAT, an extra administration fee will be charged on top of the agreed price.

§ 3. SDC has the right to determine which packaging and which shipping method are most suitable. Packaging will not be taken back.

§ 4. Prices for coated products are so conceived that everything is done in one standard color.

As soon as you want an extra color within an order, you must add a color change. A small surcharge is charged for this, regardless of the numbers per color. The prices of this color change are stated on the offer.

In the case of custom colors, a supplement will also be requested.

§ 5. Discounts and reductions

Unless expressly stated in the order confirmation from SDC, the buyer is not entitled to any direct or indirect discount, reduction, commission or reduction of any kind. Any discount promised by SDC for the prepayment of an invoice will only be granted if the full amount stated on the invoice has been received by SDC on or before the invoice's due date.

Article 4 Delivery.

§ 1. SDC always has the right to split the customer's order into partial deliveries.

§ 2. The delivery terms for SDC are always approximate (indicative) unless it has been expressly agreed in writing that the delivery term can be strictly observed by means of the statement "mandatory delivery term" or a similar statement that unambiguously indicates the punctuality of the delivery term. SDC will use its best endeavors to comply with the approximate delivery time specified by it. The customer acknowledges that he is aware that deviations from the delivery period can always occur, among other due to delays at producers, suppliers and execution agents on which SDC depends and / or its possibilities of preparing and sending the goods. In the event of a delay in implementation, the customer will in no case be able to demand the termination of the agreement and the customer will in no way be able to claim any compensation of any kind from SDC. If SDC, in case of a mandatory delivery period, has not executed on time, the customer must first notify SDC by registered letter and give a last grace period of at least 15 days before he can invoke any sanction against SDC. The delivery terms for SDC will in any case be automatically extended by the duration of the period that the customer itself is in default to perform any obligation, without SDC having to first notify the customer and / or by the duration of the period. in which SDC was confronted with force majeure.

§ 3. Delivery takes place at the address indicated by the customer upon confirmation of the order.

All deliveries are performed by international transport as standard.

When submitting the order, we ask to provide a responsible person on delivery who can receive the goods.

SDC cannot be held responsible for the delivery schedules of the carrier and any delays and cannot accept compensation on this matter. All orders are delivered to the first gate on the ground floor of the customer's building. Exceptions to this rule must be confirmed by written agreement.

It is recommended to provide delivery to a warehouse that can receive the goods in good conditions.

Additional costs may apply to all deliveries with a truck with tail lift.

§ 4. The goods will be checked by the customer immediately upon delivery for their conformity and for any visible defects. If the customer sees visible defects on delivery, he must explicitly state these on the CMR. If the customer does not do this, SDC has the right to decline full responsibility for all damage.

§ 5. Counting from the moment that the customer is in default of collecting / receiving the goods, further storage of goods takes place at the expense and risk of the customer and against payment of a fee per day depending on the place in which these goods are stored. take over the SDC warehouses.

§ 6. In any case, the customer is responsible for loading, stacking and securing the goods on his vehicle.

Artikel 5 Transfer of ownership - retention.

SDC retains exclusive ownership of all goods it supplies until all amounts due under the delivery, including any lump sum compensation, default interest and costs due in the event of late payment, have been paid in full.

The customer can therefore in no way dispose of the goods that are still owned by SDC in application of the previous paragraph. More specifically, he may not transfer them to third parties or object them with any certainty. Nor may he process, process, consume, incorporate them into other goods or mix them with other goods.

Artikel 6 Risk transfer.

The risk with regard to the goods is transferred to the customer when the goods are ready for collection or shipment to the customer in SDC's warehouses, regardless of whether they have already become the property of the customer.

The shipment of goods is always at the risk of the customer, regardless of who is responsible for the shipping costs.

Artikel 7 Billing and Payment.

§ 1. Unless otherwise agreed in writing or otherwise stated on SDC's invoices, SDC's invoices are payable in cash.

§ 2. The amount of SDC's invoices must be paid net without discount. Eventual (bank) costs are charged to the customer.

§ 3. If an invoice is incorrect, it must be protested with a registered letter within 15 days of the invoice date. Invoices that have not been protested within the aforementioned period and in the aforementioned manner will automatically be considered accepted.

§ 4. The place of payment of the customer's debts to SDC is at the registered office of SDC.

§ 5. The customer cannot refuse to pay for the goods already delivered by SDC because the totality of SDC's commitments has not (yet) been executed. Nor can the customer refuse to pay for delivered goods if he considers that the goods are non-compliant and / or defective and SDC has not acknowledged this.

§ 6. SDC has the right to first allocate payments to any costs owed, the conventional lump sum compensation and all overdue default interest before allocating it to the outstanding principal (s).

§ 7. If reasonable doubt can arise about the solvency of the customer - such as if the customer requests deferment of payment from a creditor, the customer does not pay one or more invoices from a creditor (in time), an attachment has been made at the expense of the customer, for the customer insolvency proceedings have been filed or opened (judicial reorganization, bankruptcy, collective debt settlement or similar proceedings), the customer is involved in a restructuring (merger, division, contribution from a universality or industry), the customer is dissolved and liquidated - SDC has the right to demand an advance or full advance payment for the commitments still to be performed, or to demand the provision of (additional) securities.

§ 8. SDC always has the right (also in the case of overlapping of creditors) to offset all amounts that SDC would owe the customer for whatever reason with the amounts owed by the customer to SDC, regardless of whether or not these amounts are already due and payable.

§ 9. For new customers (customers who order a 1st time) a 100% advance payment is requested from the invoice. The order will only be prepared after receipt of this payment. So only from the moment of payment also the delivery period starts to run. Afterwards, the customer can receive a payment term of 30 days after the invoice date, if they have an approved credit.

§ 10. The following conditions always apply to custom orders:

50% with order confirmation (only after receipt of payment, the production period starts to run)

40% before shipment of the goods (if the customer has an approved credit)

10% in 30 days (if the customer has an approved credit)

If the customer does not have an approved credit, he must pay the remaining 50% before shipping the goods.

Artikel 8 Breach of contract

§ 1. In the absence of payment within the due date of one or more invoices, SDC has by operation of law and without notice of default

- right to the payment of default interest at a conventional interest rate equal to the interest rate referred to in Article 5 of the Law of 2 August 2002 on combating late payment in commercial transactions from the invoice date, as well as

- (b) right to payment of a flat-rate compensation of 10% of the amount not paid (on time), with a minimum of EUR 75, - and this without prejudice to SDC's right to compensation of the legal costs (including court fees) in the event of a judicial recovery procedure. must be fed.

§ 2. In the absence of payment on the due date of one or more invoices (drawn up in the context of the same or a different agreement), all outstanding but not yet due invoices that SDC issued to the customer will be due and payable by operation of law and without notice. due in § 1.

§ 3. In the absence of payment on the due date of one or more invoices (drawn up under the same or a different agreement), SDC has the right to suspend commitments that still have to be performed until it has received full payment.

§ 4. SDC has the right to dissolve the agreement without judicial intervention, with immediate effect, in whole or in part (i.e. for the part still to be executed) without being liable for any compensation, provided that it sends a registered letter informing this decision.

- in case of inability to issue one or more checks without cover due to protest of one or more bills due to seizure of charges, dissolution and liquidation of a collective debt settlement or bankruptcy of the customer

- (b) in case the customer fails to fulfill one or more of his obligations towards SDC, including the timely payment of the invoices drawn up by SDC or the requested advances or advance payments and the provision of (additional) securities, and this was not met within 15 days following a notice of default by SDC

- (c) in case the customer indicates that he will not fulfill his obligations.

In the event of dissolution, SDC is entitled to additional compensation at a flat rate of 50% of the amount SDC would have been entitled to if the agreement had been properly executed. In the

event of dissolution, the goods already delivered must be returned to SDC at the customer's expense, plus compensation for the depreciation that it may have undergone for whatever reason. In the event of partial termination, the part of the agreement executed by SDC must be paid in full by the customer and the additional compensation will be calculated on the part of the agreement that has not yet been executed.

Artikel 9 Liability.

§ 1. SDC will only be liable for damage caused by the non-execution, the incomplete execution, the late execution or the improper execution of its obligations in the event of its intentional or gross error. SDC is not responsible for any errors - including intentional and gross errors - committed by its employees and executive agents. SDC's liability is limited to compensation of foreseeable, direct and personal damage to the customer, to the exclusion of all indirect or intangible damage, including, without limitation, loss of profit, loss of customers or contracts and additional costs.

Any compensation payable by SDC will be limited to a maximum of the amount that SDC has invoiced to the customer or that it may have contractually invoiced for the goods that gave rise to the customer's damage. The customer expressly and unconditionally waives any further claims for damages of any kind at SDC's expense.

§ 2. If the goods are found to be non-compliant or if visible defects are found, the customer must immediately inform SDC and confirm his detailed complaints / findings in a registered letter to SDC within 48 hours after delivery, failing which the customer will not take any will be entitled to more repair, replacement or compensation. A legal claim must be instituted, under penalty of forfeiture, within 2 months after the establishment of the non-conformity / defect. The limitations of liability stated in §1 further apply.

§ 3. If hidden defects are discovered, the customer must immediately inform SDC and confirm his detailed complaints / findings within 48 hours after the defects have been identified by registered letter to SDC, failing which the customer will not be entitled to any repair, make more replacement or compensation. A legal claim must be instituted, under penalty of forfeiture, within 2 months after the establishment of the non-conformity / defect. The limitations of liability stated in §1 further apply.

§ 4. Unless the customer has informed SDC in writing, SDC is assumed to have no knowledge of the concrete use that the customer will make of its goods. The customer must check whether the technical properties of the goods are adequate for the use he wants to make of them.

§ 5. SDC is not liable for the result of operations that the customer performs or has performed on the goods.

§ 6. SDC is not liable for damage that has arisen after the goods have been changed by the customer or by a third party (through processing, processing, incorporation, mixing or otherwise).

§ 7. The information contained on the SDC website (www.sdclab.be) is for information only. No rights can be derived from this information in any way, nor can this information give rise to any claims or (legal) claims.

§ 8. If SDC is liable (especially for non-conforming and / or defective goods), the customer must always give SDC the opportunity and allow a reasonable time to repair or replace the (non-conforming or defective) goods, before he can rely on any other remedy.

§ 9. The limitations of liability provided for in this article will always be interpreted in the sense that they have been legally interpreted. In the event that a limitation of liability provided in this article for certain hypotheses is not legally valid, such hypothesis will be deemed not to be intended / unwritten.

Artikel 10 Privacy

SDC makes every effort to comply with the obligations under the General Data Protection Regulation (GDPR). Any personal data is collected and kept by SDC for the following purposes:

- to be able to follow up on your order and / or questions about our goods
- to optimize cooperation with the customer;
- to be able to inform the customer about SDC goods and / or changes in the range
- to comply with any legal obligations incumbent on SDC;
- for handling financial transactions under the agreement with the customer;
- for sending our newsletters and (eventual) advertising messages in our sector.

For more information about the processing of personal data, SDC would like to refer to its privacy policy as shown on its website www.sdclab.be

The customer can request to change, delete or transfer his data at any time by email to info@sdclab.be

If the customer does not agree with the way in which his data is processed, he can contact the Commission for the protection of privacy (Drukpersstraat 35, 1000 Brussels, +32 (0) 2 274 48 00, commission@privacycommission.be).

Artikel 11 Force of the majority

In the event that SDC is confronted with a force majeure situation, the performance of its obligations will be automatically suspended as long as that force majeure situation continues. If that situation of force majeure lasts longer than 2 months, SDC can declare the agreement dissolved, in which case it will be released from all its obligations. The customer is not entitled to compensation or reimbursement of amounts already paid if SDC is faced with a situation of force majeure.

Force majeure for SDC includes all circumstances that are not due to an error on the part of SDC and that make it impossible to implement SDC's commitments, seriously complicates them, seriously delays them or makes them at least 5% more expensive, including but not limited to fire, machine breakdown, accidents, strikes or lockouts, exceptional traffic disruptions, exceptional weather such as storm, snow and floods, import or export restrictions, tax increases, taxes, fees, charges, duties and customs or other government measures, exchange rate fluctuation, inflation, epidemic, riot or war, errors, delays, price increases or force majeure in suppliers of goods or services. The unacceptable and unavoidable nature of the aforementioned circumstances is always deemed to have been acquired.

Artikel 12 Extensive right of retention.

SDC is allowed to withhold all of the customer's property that it owns / detains (on its premises, in its warehouses and workshops, in its vehicles ...) until the customer owes all its debts to SDC (principal, interest, compensation, costs, ...) for whatever reason (including other agreements) has paid.

Article 13 Warranty.

2-YEAR LIMITED WARRANTY

Unless otherwise agreed at the time of the order, we offer a warranty for our products for 2 years after their shipment. This warranty applies to defects in design and material, provided that the product is used in the correct conditions and that it is used as intended. For example: - chairs are not expected to be used for more than 40 hours per week - all products using QM FOAM are only intended for sitting and / or sleeping. The guarantee therefore does not apply to jumping, standing or walking on the furniture. The usual wear and tear of the products is also expressly excluded from the warranty. After a while, the products for which QM FOAM was used will show an "oxidation layer" and a certain "texture". This was deliberately chosen as part of the design and can in no way be considered damage. During the life of the product, SDC offers the buyer after-sales services. Products made of veneer and laminate are not covered by the warranty, but SDC will pass on to the purchaser any warranty that SDC itself has received from manufacturers of veneer and laminate products.

Damage caused by water, ultraviolet light, sea or extreme temperature changes is expressly excluded from the warranty. SDC makes no other warranty for products or their suitability for any other purpose, as well as no other express or implied warranty. Products that do not meet the description, are defective in any area or that are defective in terms of execution or material will be replaced, repaired or, if SDC so decides, credit will be given to the buyer at the value of the original purchase price, provided that SDC is notified of such defect within seven (7) days of delivery and that the purchaser returns the product according to SDC's instructions. The aforementioned represents the sole remedy for the purchaser and SDC's sole obligation with regard to delivered products. The buyer agrees to waive any and all rights or claims against SDC in accordance with law and fairness. SDC is not liable for direct, indirect, incidental, special or resulting damage under any circumstances, including damage or loss resulting from inability to use the products, increased operating costs or production loss, or any other form of damage results from reasons similar to the above or not (this list is not exhaustive). This warranty gives you specific legal protection, which may vary from state to state or country to country. Some states do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you.

Artikel 14 Designs

All designs shown in our catalog and associated prices are and remain our property. All dimensions shown are only an indication. SDC's catalog and price list are not available to the general public and are only released commercially to encourage purchase.

Artikel 15 Material

SDC carefully selects only the finest, best quality material for its products. Although SDC makes every effort to ensure a consistent appearance of the products, all products sold are subject to commercially acceptable variations or inequalities in color, surface, texture or texture. These deviations are due to the nature of the materials and the techniques used. Since wood is a natural raw material, its color changes over time. This is due to the influence of sunlight, but is also due to the aging of the wood itself. Differences in color can therefore also differ from load to load. Since our tables and chairs come from different production loads, slight differences in color and texture are possible.

C.O.M./UPHOLSTERY

C.O.M.stuffs should be sent to SDC completely free of charge. The fabric requirements are indicated by SDC and always refer to uniform, solid colored fabrics, with a width of 140 cm. Unless expressly agreed in advance, SDC will refuse fabrics with a pattern. Stripes and lines are also considered patterns in the areas of cutting and knitting, and must therefore be announced in advance. For leather orders, we use a minimum order quantity per color. Several production loads of fabrics and leather may differ slightly in terms of hue. This means that SDC checks the substances against grayscale ((UNI EN 20105 A02 / A03) but cannot be held responsible for unavoidable persistent minor differences.

Artikel 16 Varia.

If it has been agreed that goods will be delivered on demand, all goods that have not yet been called up will be invoiced by SDC at the end of the call-off period.

Artikel 17 Divisibility of the clauses.

Any total or partial invalidity, nullity, unenforceability or unenforceability of one or more clauses of these general terms and conditions does not affect the validity, enforceability and enforceability of the other clauses or the other part. The parties undertake to replace the clause in question with a valid, enforceable and enforceable clause that is as close as possible to the original intention of the parties.

Artikel 18 Applicable law and competent court.

§1. The legal relationships between the parties are exclusively governed by Belgian law.

§2. (a) In the event of a dispute, the courts of the district where SDC has its registered office shall have exclusive jurisdiction according to their respective substantive jurisdiction.

(b) In addition, only SDC also has the right to bring the dispute to the (domestic or foreign) court that would have jurisdiction if the jurisdiction clause of §2 (a) were not included in these general terms and conditions.
